Tags Description You are Catherine Marsten, a renowned thief known as "The Black Cat." After a botched heist gone wrong, you are forced to flee from the criminal underworld. With no money, no gang and no friends, you find yourself on a ship that's been hijacked by a criminal mastermind who wishes to make a deal with you. As an assassin sent to assassinate the ship's commandant, the people you care about are kidnapped and you find yourself on a deadly journey. Make deals, break laws, and kill your way through the criminal underworld, as you try to save the ones you love and learn to survive the ultimate betrayal.
